Pebblous

Canalys Forum EMEA 2026
Barcelona, 6–8 October

Founding Partner Programme · EMEA

Pebblous Partner Offer

Data quality as a service for integrators, MSPs and distributors. AI projects stall on data, and high-risk AI must document data quality under EU AI Act Article 10.

1 Three services, one account

#	Service the partner delivers	Product · billing
1	**Diagnose.** Paid data-quality assessment, automated: about 100,000 images an hour, 65 ISO/IEC 5259-2 measures.	Data Clinic · fixed-scope project
2	**Improve.** Physics-grounded synthetic data for the gaps the diagnosis finds. US Patent 12,481,720.	PebbloSim · per project or dataset
3	**Prove.** ISO/IEC 5259-2 and 25024 test report from a KOLAS-accredited laboratory (no. KT1362), recognised across ILAC economies.	Data Clinic + accredited testing · per report

Shaded row: an accredited report, not a vendor claim. Evidence for EU AI Act Article 10.

2 Proven at scale

Hyundai Motor · manufacturing

5 projects + 1 ongoing

- 3 data-quality diagnosis and synthetic-data projects
- 2 reinforcement-learning projects on the plant floor
- Ongoing: agentic CAD design

Data acquisition from 15 days to under 1 hour; model accuracy roughly doubled.

Physical AI · LIBERO robot dataset

273,465 frames

- Full dataset diagnosed: 1,693 episodes
- To our knowledge, the first ISO/IEC 5259-2 test report on multimodal robot data
- Diagnosis plus prescribed improvements, re-tested

Benchmarks looked fine; robots still failed 45 of 45 trials when the target moved. Fixed data: 68% to 87%.

Also across Korea's flagship industries: LG Electronics, LG U+, LS Electric, Hanwha Vision, KEPCO, Neuromeka, Republic of Korea Army. In national Physical AI programmes: lead of AADS; data operating system for the Jeonbuk Physical AI platform. Robot result: simulation-based validation.

3 Founding partner terms

Available now · from Q4 2026

What exists today

- Services revenue stays 100% with the partner
- Territory priority and inbound lead routing
- Pebblous engineers co-deliver first accounts

Built with founding partners · H1 2027

What we build together

- Published margin schedule and partner portal
- Enablement and certification curriculum
- Managed governance on Data Greenhouse

You own the customer and territory; Pebblous does not sell direct there. Next step: a technical session, then one joint pilot within 30 days.

We are the engine; you are the vehicle.
